W. T. Lindsay Camping Head For Council Scouts

Appointment of Wm. T. "Bill" Lindsay as director of camping for the Los Angeles Area Council, Boy Scouts of America, was announced this week by Arthur A. Shuck, scout executive.

Lindsay succeeds John W. Ackermann who resigned his position to accept the Scout Executive job at the Yosemite Area Council with headquarters in Modesto, Lindsay brings the benefit of years of experience in Scout camping to his new job, having served as camp director in camps at Oakland and Petaluma, and as director at Camp Peppertine in 1946.

The new director will continue as camp director at Peppertine in 1947, and has announced his staff. Merl Sloan will head the waterfront staff, assisted by Leland Moser and Dick Kohn. Harley Gordon will serve as camp quartermaster and will supervise food orders and storage. George Auger will direct the program section with Ronald Ceurvorst serving as activities and nature man, Bob Tranquada and Nick Nicholson handling handicraft.

Camp Peppertine will open on Saturday, June 21, with Centinela district and will continue for ten weeks, closing on Saturday, Aug. 30. Districts will attend camp as a group with the district executive serving as district camp director. A varied program of aquatics, nature study, hiking, Scout, and camp craft, advancement and campfires.

In addition to Camp Peppertine the council's two close-in camps will operate continuously from close of school to the first week in September. Camp Arthur Letts, in Hollywood Hills, will be directed by Frank Delgado, famous as "Mr. D" while Camp Rio Hondo will be supervised by Ranger Ed King. Both camps will be available to all Scouts for camping for week-ends, short periods or for long term. Scoutcraft, camp and handicraft and Scout skills will feature the program at both locations.

Student Vets. Should Check Pay Benefits

J. G. Caldwell, director, Torrance Area Veterans Service Center, today warned student veterans to check their eligibility carefully before applying for readjustment allowances when their school term ends.

Under the law, Caldwell said, no veteran is eligible for readjustment allowance for any period for which he is being paid a GI subsistence allowance.

If for any reason a veteran receives double benefits, the veteran will face the prospect of refunding the money illegally received. In addition, the law prescribes that any further rights to readjustment allowances will be canceled if the veteran accepts such an allowance to which he knows he is not entitled.

Caldwell emphasized that even if a student veteran is not receiving subsistence pay he may not meet all the eligibility requirements for readjustment allowances. Such allowances are intended only for veterans who are ready and willing to enter civilian occupations.

The veteran who seeks employment for temporary periods between terms sharply limits his availability and choice of jobs, according to State Department of Employment regulations, and therefore may not be considered eligible for the readjustment pay on the same basis as other unemployed veterans.

Veterans may check their rights and secure advice on their GI Bill benefits at Torrance Area Veterans Service Center, located at 1339 Post avenue.

E. W. Thomas Is New Santa Fe Claim Agent

Appointment of E. W. Thomas as freight claim agent for Santa Fe Railroad Lines with headquarters at Los Angeles was announced today by C. D. Hart, general freight claim agent for the system.

Thomas entered Santa Fe service as a claim investigator in 1918, advancing through posts of claim inspector and assistant chief clerk before promotion to district freight claim agent at San Francisco in 1941. He was assistant freight claim agent at Los Angeles from 1945 until his current promotion succeeding Leo Jensen who retired June 1 after more than 45 years of service.

Introduce New Type Steel Grid Conveyor Belt

A steel grid conveyor belt that can turn corners without tipping—describe a complete circle if need be—move a product uphill or down, or horizontally straight ahead, has been designed for industrial process lines with special space requirements. Known as "Flex-Grid," this wire-built belt is manufactured by Cyclone Fence division of American Steel & Wire Company, United States Steel Corporation subsidiary, in Waukegan, Ill.

Not only does the new conveyor accommodate all the space needs of a three-ring industrial circuit, but its open construction permits the air circulation required for cooling a lightweight product while in motion. A section two feet wide weighs only three pounds per linear foot.

Record Number Of Student Vets Expected In '48

Veterans who plan to attend universities or colleges for the first time next fall are urged to arrange immediately for entrance to the schools of their choice if they have not already done so. Dr. Buel F. Eneyart, chief of vocational rehabilitation and education for the Los Angeles regional office of the Veterans Administration, announced here today.

Eneyart stated that universities and colleges expect a record enrollment of veterans next fall. At the end of April there were over 75,000 veteran students in institutions of higher learning in the Los Angeles regional area.

Veterans who wait until the last minute to apply for entrance to schools run the risk of being "shut out," Dr. Eneyart said.

Vets From Other States Apply For Service Bonuses

A report from the Torrance Area Veterans Service Center this week stated that during April and May, 2,608 ex-GI's completed bonus applications at the Torrance Center for payments from various states and territories.

In Los Angeles County, 5,661 bonus applications were completed in the two months' period at the 18 Veterans Service Centers, and thousands more are pouring in as they learn of the bonus plans.

Dependents of deceased veterans, in many instances, are eligible to receive the bonuses, it was stated.

Information, bonus application forms and free notary service are available at the Torrance Area Center, 1339 Post ave.
